

Collingwood Primary School's Proposed PE plan 2018-19

At Collingwood, we recognise the contribution of physical education and sport to the health and well-being of the children. We believe that an innovative, varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all our children.

Our Primary School Sport's Funding will enable us to continue and extend our provision through employing additional sports professionals, entering into more competitive sports competitions, increased participation and partnership links and training our staff to deliver enhanced in-house quality PE sessions.

Collingwood Primary School will be receiving £18,200, and in addition to this the school commits additional funding

See the table below to see how the funding will be spent.
